

RANJAN POKHAREL

COMPUTER ENGINEER / BACKEND DEVELOPER

Phone: 9861439642

Email: pokharelranjan9861@gmail.com

Address: Bhaktapur, Nepal

Linkedin: <https://www.linkedin.com/in/ranjan-pokharel>

Github: <https://github.com/Pokh-ran>

A motivated Computer Engineering professional from Nepal Engineering College with a passion for web development, specializing in Python and Django. Focused on building practical, real-world applications while continuously improving technical and problem-solving skills. Open to opportunities to collaborate, learn, and create impactful software solutions.

EDUCATION

Bachelor in Computer Science & Engineering | 2021-2025

Nepal Engineering College | Duwakot, Bhaktapur

Higher Secondary Education (+2) | 2020-2021

Viswa Niketan Secondary School, Tripureshwor, Kathmandu

PROJECTS

• Event Pass

Developed a web-based Event Pass Management System integrated with facial recognition for secure and automated event entry verification. The system allows users to register, login, browse events, and book passes, while generating unique digital credentials. At the entry point, facial recognition is used to verify user identity and validate access, enhancing security and reducing manual checking. An admin panel is included for managing events, users, and attendance records efficiently.

• News Portal

This project is a Django-based web application that functions as a news portal system with admin and user-side features. It allows content management, user authentication, and dynamic publishing of news/articles and event-style content depending on implementation.

• To Do App

This project is a simple task management (To-Do) web application built using Django, designed to help users create, manage, and track their daily tasks efficiently.

SKILLS

- Python, Django
- HTML, CSS, Bootstrap
- JavaScript (Basic)
- PostgreSQL / MySQL
- REST API (Basic)
- Git & GitHub
- Web Development
- Database Management
- Problem Solving

STRENGTHS

- Highly focused and responsible
- Strong problem-solving and analytical skills
- Quick to learn and adapt to new technologies
- Good communication and teamwork spirit.

CERTIFICATES

Python Django Training
Broadway Infosys pvt.Ltd
21 st Apr,2025-6 th Jul,2025
